

# RSL 20/30 Module for the Peugeot 206 CC

## The cushy add-on for your Peugeot 206 CC

### What is a RSL 20 / 30 module ?

Are you going bananas when you have to keep pushing or pulling the roof switch all the time to open or close the roof? With the RSL 20 / 30 (Roof Switch Lock) you will handle the roof on a fingertip. No annoyance of holding the roof switch. The second hand remains free. With the RSL 20 / 30 module you have the control to open or close your hard-top up to the limit of 20 or 30 km/h. RSL 20 / 30 can be installed with all 206 CC models.

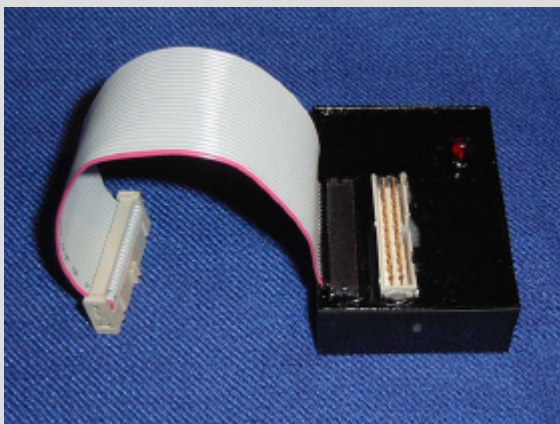

### Characteristics :

- Automatic hold function for the roof switch, Open / close hard-top up to a speed of 20 or 30 km/h.
- Stop or invert the moving direction any time by renewed touch of the the roof switch.
- Accurate control by processor-controlled monitoring the micro switches whethe in summer or winter.
- Easy deactivation and activation of the RSL-functions (e.g. for visiting a dealer)
- Not visible after installation, deinstallation without any remainders
- 2 years warranty on the functionality of the module.

### How will the modul be installed ?

The modul will be placed in the trunk under the cover near the roof control. No cables have to be cut. The RSL20 / RSL30 module needs no further cables to be connected. To install it will takes approximately 15 min and can be done very easily. You don't need any special tools. It is possible to combine a RSL 20 / RSL 30 module with a RRE module.
